The Word on the Covid-19 Vaccine: What We Know So Far

By

Diana Rangaves, PharmD

December 23, 2020

It would be an understatement to say that 2020 was a difficult year for everyone without a vaccine. Most of the world has been living in perpetual fear for several months. This includes the economic downturn various industries have faced including agriculture, energy, tourism, and retail businesses.

READ MORE: COVID-19 Causes Stress on U.S. Agriculture

Still, scientists and researchers have worked tirelessly. Therefore, the search for a vaccine against the novel coronavirus has seen some fruit.
The news these days certainly seems hopeful. However, the information is still conflicting. It might be helpful to take a brief look at what we know about the Covid-19 vaccine and its progress so far. This information might give many people a ray of hope and the motivation to carry on for ...

Challenges in Life Sciences: What 2020 Meant for This Industry

Articles  Diana Rangaves, PharmD
When we compare life sciences and healthcare to other industries, the strategy in the former is much more fragmented. The pricing practices are also relatively unbalanced while the product cycle is quite long as well.
